Congratulations!

To all who responded with

the latest news, a big

THANKS!

for helping to make this

newsletter "newsy"!!

Cards & Letters

Webb

Dan and Ginny are in Virginia Beach with Matthew (4), Laura (2) and Rachel (~4 mos.). Dan is the Asst. Supply Officer on the CONCORD (AFS 5), but will report to the Fleet Material Support Office, Mechanicsburg, PA. in April for his payback tour.

Gaffney

Steve and Denise and family are alive and well and still living in Springfield, VA. Joseph (now 3) had open heart surgery in April to correct another problem they found. They now have given him a complete bill-of-health. Denise is expecting their 3rd child in April 1990. Steve has been selected to attend the Marine Corps Command and Staff College in Quantico next year.

Cox

Bill and Karen and family are still in beautiful Ramona, CA and hope to be there for at least a few more years. From Feb. through Aug, Bill and the RANGER visited Pearl, Subic Bay, Singapore, Diego Garcia, Perth, Thailand and Hong Kong! Now Bill is enjoying being at home with Karen, Joel (now 7) and David (Mr. Dynamo at age 2 1/2). They are all part of a close-knit church family, where Bill teaches Children's Church and plays the guitar. He will be transferring to the E-2 RAG in Feb. following the "new" career path for aviators. He should be there about 2 years, then will cycle back to a fleet squadron as a Dept Head.

Lindberg

Pete has been on tour on the ENTERPRISE, but will detach in early January. He will be returning to Monterey to be the CSM Curricular Officer! Leslie survived the earthquake OK while Pete was at sea.

For Your Information

Banzer

Donna has a new address, but is still at USMC Headquarters in DC. She should be there another year if things go as they should with the Promotion Board. She has a Hot Honey in San Diego and wishes everyone a Merry Christmas!!

Frink

For the past 2 years Steve has been at Naval Air Reserve, Norfolk, VA. He will be at HSL-40, the H-60B FRS in Mayport, FL. until Dec. when he will report to Helicopter Combat Support Squadron (Special) 4 to fly the H-60H. Tammy and the kids (Allison 6 1/2, and Aaron 2 1/2) are fine and will be staying in the Norfolk area for about 3 more years.

Ally

Sherrie will be leaving D.C. in January to become the OIC of the PSD in Oceana. She is really looking forward to this job change!

Happy

Campers!!

Key

Bill and Anne will be in Bremerton, WA until June of 1990 when they hope to return to their home in the D.C. area.

Hughes

Amy has been transferred to the Naval Academy's ADP Department. Her major project is their Data Network where she is "fighting things out" with the contractor. But she is learning a lot about Networking and hardware and has a new MAC, a Z-248 and a terminal into the time-sharing system.

Letters to the Editor

Whitehouse

Al and Alicia are all settled in their home in Stafford, VA. Al is stationed at Quantico playing games with ADPE for the Marines. Alicia gave birth to Anna last fall, and is now expecting again! William is becoming quite a young man in a boyish kind of way and goes to school 3 days a week. He enjoys singing, writing, and simple math. Both Anna and William have a great deal of affection for each other and a tremendous amount of fun egging each other on. Mom and Dad enjoy watching them in action!

Hightaian

Hoskins

Greg and Debbie had a baby girl in Jan. Greg came off another cruise in Feb, and is now at sea again. He will be leaving the KENNEDY in 2 or 3 months with verbal orders to the F-14 RAG then to a squadron on the East Coast.

Tom has relieved CDR Branson as Curricular Officer for Computer Technology! Prior to that he was XO of USS STEIN (FF-1065) where he went through 9 months of overhaul, Refresher Training, INSURV, Operational Propulsion Exam, and a port visit to Puerto Vallarta, MX. Diane and daughter, Jennifer (12), will join Tom in Monterey in Dec. on Shubrick Rd of La Mesa. Tom says there are a few things in the works that may affect all of us with a 95 P-code. They are in the process of merging CSM with Telecomm Sys Mgmt. This may result in a new P-code. Tom gets to put together an 8 quarter curriculum to be implemented next year. He'll have more info for us as time goes on.

Overall

Karen is still managing the Computer Center at a joint command. That includes being COR on about 20 maintenance contracts and 2 engineering/programming contracts. It's weird doing things the Army way, but it makes the Navy look even better!! Thumper misses the PL-63 parties but is enjoying yet another new home!
